INDEPENDENT AUDITORS' REPORT

To the Shareholders of **Guyana Precious Metals Inc.**

We have audited the accompanying consolidated financial statements of Guyana Precious Metals Inc. and its subsidiaries, which comprise the consolidated statements of financial position as at December 31, 2011, December 31, 2010 and January 1, 2010 and the consolidated statements of loss and comprehensive loss, cash flows and changes in equity for the years ended December 31, 2011 and December 31, 2010 and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Guyana Precious Metals Inc. and its subsidiaries as at December 31, 2011, December 31, 2010 and January 1, 2010 and its financial performance and its cash flows for the years ended December 31, 2011 and December 31, 2010 in accordance with International Financial Reporting Standards.

Management's Responsibility for Consolidated Financial Statements

The accompanying audited consolidated financial statements of Guyana Precious Metals Inc. (the "Company" or "Guyana") are the responsibility of management and the Board of Directors.

The audited consolidated financial statements have been prepared by management, on behalf of the Board of Directors, in accordance with the accounting policies disclosed in the notes to the audited consolidated financial statements. Where necessary, management has made informed judgments and estimates in accounting for transactions which were not complete at the statement of financial position date. In the opinion of management, the audited consolidated financial statements have been prepared within acceptable limits of materiality and are in compliance with all applicable International Financial Reporting Standards.

Management has established processes, which are in place to provide it sufficient knowledge to support management representations that it has exercised reasonable diligence that (i) the audited consolidated financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of, and for the periods presented by, the audited consolidated financial statements and (ii) the audited consolidated financial statements fairly present in all material respects the financial condition, results of operations and cash flows of the Company, as of the date of and for the periods presented by the audited consolidated financial statements.

The Board of Directors is responsible for reviewing and approving the audited consolidated financial statements together with other financial information of the Company and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the audited consolidated financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the audited consolidated financial statements together with other financial information of the Shareholders.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

The accompanying notes to the consolidated financial statements are an integral part of these statements.

1. Nature of operations

Guyana Precious Metals Inc. (the "Company" or "Guyana") was incorporated under the Alberta Business Corporation Act on March 16, 1994 under the name of Minera Sierra Madre Inc. Effective December 15, 1999, the Company changed its name to MSA Capital Corp. and, subsequently, on October 28, 2002, changed its name to Coronation Minerals Inc. Pursuant to a resolution passed by shareholders on June 18, 2009, the Company changed its name to Guyana Precious Metals Inc. which management believes better reflects the activities of the Company of acquiring early stage properties for mineralization in Guyana, South America and surrounding regions. On August 17, 2009, the Company announced that it had filed articles of amendment to change its name to "Guyana Precious Metals Inc." The primary office is located at 141 Adelaide Street West Suite 1205 Toronto, Ontario, M5H 3L5.

The consolidated financial statements of Guyana for the year ended December 31, 2011 was reviewed by the Audit Committee and approved and authorized for issue by the Board of Directors on April 13, 2012.

These consolidated financial statements have been prepared using accounting policies applicable to a going concern, which contemplates the realization of assets and settlement of liabilities in the normal course of business as they become due.

While the Company has no source of revenue, it believes it has sufficient cash resources to meet its administrative overhead and maintain its mineral investments for the next two to three years, depending on future events. In order to meet future expenditures and cover administrative and exploration costs beyond that point, the Company will need to raise additional financing. Although the Company has been successful in raising funds to date, there can be no assurance that adequate funding will be available in the future, or available under terms favourable to the Company.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements, unregistered claims, aboriginal claims and noncompliance with regulatory and environmental requirements.

Share consolidation

On July 25, 2011, the Company announced that it had received TSX Venture Exchange approval for the consolidation of the Company's issued and outstanding common shares on the basis of one new common share for every two common shares presently issued and outstanding. The consolidation became effective July 27, 2011. The share consolidation has been reflected in these consolidated financial statements and all applicable references to the number of shares, warrants and stock options and their strike price and per share information for 2010 have been restated.

2. Significant accounting policies

(a) Statement of Compliance and Conversion to International Financial Reporting Standards ("IFRS")

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"), effective for the Company's reporting for the year ended December 31, 2011.

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements. They also have been applied in preparing an opening IFRS statement of financial position at January 1, 2010 (note 22) for the purposes of the transition to IFRS, as required by IFRS 1 - First-time Adoption of International Financial Reporting Standards.

(b) Basis of presentation

These consolidated financial statements have been prepared on a historical cost basis except for the revaluation of certain financial assets to fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

In the preparation of these consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the period. Actual results could differ from these estimates. Of particular significance are the estimates and assumptions used in the recognition and measurement of items included in note 2(q).

(c) Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries.

The results of subsidiaries acquired or disposed of during the periods presented are included in the consolidated statement of loss and comprehensive loss from the effective date of acquisition and up to the effective date of disposal, as appropriate. All intercompany transactions, balances, income and expenses are eliminated upon consolidation.

The following companies have been consolidated within the consolidated financial statements:

Corporation	Country of incorporation	Principal activity		
Guyana Precious Metals Inc.	Canada	Parent company		
Guyana Precious Metals (Barbados) Inc. (1)	Barbados	Holding company		
PMG Inc. ⁽²⁾	Guyana	Exploration company		

⁽¹⁾ 100% owned by Guyana; and

⁽²⁾ 100% owned by Guyana Precious Metals (Barbados) Inc.

(d) Foreign currencies

The functional currency, as determined by management, of Guyana Precious Metals Inc., Guyana Precious Metals (Barbados) Inc. and PMG Inc. is the Canadian Dollar. For the purpose of the consolidated financial statements, the results and financial position are expressed in Canadian Dollars.

Transactions in currencies other than the functional currency are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the period end exchange rates are recognised in the consolidated statement of loss and comprehensive loss. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated based on the exchange rate at the date of the transaction.

(e) Financial Instruments

Financial assets:

Financial assets are classified into the following categories: financial assets 'at fair value through profit or loss' ("FVTPL"), 'held-to-maturity investments', 'available-for-sale' financial assets and 'loans and receivables'. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

All financial assets are recognized and derecognized on the trade date where the purchase or sale of a financial asset is under a contract whose terms require delivery of the financial asset within the time frame established by the market concerned, and are initially measured at fair value, plus transaction costs.

Financial assets classified as FVTPL are subsequently measured at fair value on each subsequent reporting date.

Financial liabilities:

Financial liabilities are classified as either financial liabilities 'at FVTPL' or 'other financial liabilities'.

All financial liabilities including borrowings are initially measured at fair value, net of transaction costs.

Financial liabilities classified as FVTPL are subsequently measured at fair value on each subsequent reporting date. Other financial liabilities are subsequently measured at amortized cost using the effective interest method, with interest recognized on the Consolidated Statement of Loss on an effective yield basis.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest costs over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability or (where appropriate) to the net carrying amount on initial recognition.

De-recognition of financial liabilities:

The Company derecognizes financial liabilities when the obligations are discharged, cancelled or expire.

The Company's financial instruments consist of the following:

Financial assets:	Classification:	
Cash and cash equivalents	FVTPL	
Short-term investments	FVTPL	
Restricted cash	FVTPL	
Financial liabilities:	Classification:	
Amounts payable and other liabilities	Other financial liabilities	

Impairment of financial assets:

Financial assets are assessed for indicators of impairment at the end of each reporting period. Financial assets are impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial assets, the estimated future cash flows of the investments have been negatively impacted. Evidence of impairment could include: significant financial difficulty of the issuer or counterparty; or default or delinquency in interest or principal payments; or the likelihood that the borrower will enter bankruptcy or financial reorganization.

(e) Financial Instruments (continued)

The carrying amount of financial assets is reduced by any impairment loss directly for all financial assets with the exception of accounts or loan receivable, where the carrying amount is reduced through the use of an allowance account. When an accounts or loan receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognized in profit or loss.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortized cost would have been had the impairment not been recognized.

Financial instruments recorded at fair value:

Financial instruments recorded at fair value on the consolidated statements of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels: Level 1 - valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 - valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and Level 3 - valuation techniques using inputs for the asset or liability that are not based on observable market data (unobservable inputs). As of December 31, 2011, December 31, 2010 and January 1, 2010, cash, restricted cash and the Company's investment in Prophecy Coal Corp. ("Prophecy Coal") (note 8) are recorded at fair value and are considered as Level 1 financial instruments. Prophecy Coal common shares are considered as a Level 1 financial instrument. As at December 31, 2010 - \$160,000) and Prophecy Coal warrant securities are carried at a fair value of \$205,000 (carried at Level 1) (December 31, 2010 - \$160,000) and Prophecy Coal warrant securities are carried at a fair value of \$290 (carried at Level 3) (December 31, 2010 - \$52,700 and January 1, 2010 - \$nil). The change in Level 3 investments during the year was due to a decrease in the value of the Prophecy Coal common shares and warrant securities which was recognized in the statement of loss and comprehensive loss as unrealized losses.

(f) Impairment of non-financial assets

At the end of each reporting period, the Company reviews the carrying amounts of its non-financial assets with finite lives to determine whether there is any indication that those assets have suffered an impairment loss. Where such an indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. The recoverable amount is the higher of an asset's fair value less cost to sell or its value in use. In addition, long-lived assets that are not amortized are subject to an annual impairment assessment.

(g) Exploration and evaluation expenditures

The Company expenses exploration and evaluation expenditures as incurred. Exploration and evaluation expenditures include acquisition costs of mineral properties, property option payments and evaluation activities.

Once a project has been established as commercially viable and technically feasible, related development expenditure is capitalized. This includes costs incurred in preparing the site for mining operations. Capitalization ceases when the mine is capable of commercial production, with the exception of development costs that give rise to a future benefit.

(h) Property and equipment

Property and equipment ("PE") are carried at cost, less accumulated depreciation and accumulated impairment losses.

The cost of an item of PE consists of the purchase price, any costs directly attributable to bringing the asset to the location and condition necessary for its intended use and an initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

Depreciation is recognized based on the cost of an item of property and equipment, less its estimated residual value, over its estimated useful life at the following rates:

Detail	Percentage	Method
Vehicle	30%	Declining balance
Excavation equipment	30%	Declining balance

Where parts of an item of property and equipment have different useful lives, they are accounted for as separate items of property and equipment.

An asset's residual value, useful life and depreciation method are reviewed, and adjusted if appropriate, on an annual basis.

(i) Flow-through shares

Flow-through shares are a unique Canadian tax incentive. The Company has adopted a policy whereby flow-through proceeds are allocated between the offering of the common shares and the sale of tax benefits when the common shares are offered. The allocation is made based on the difference between the quoted price of the common shares and the amount the investor pays for the flow-through shares. A flow-through premium liability is recognized for the premium paid by the investors. The liability is reduced with a corresponding increase in deferred income tax recovery in the period of renunciation. A deferred tax liability is recognized in accordance with IAS 12, Income Taxes, for the tax base of the mineral properties less the amount renounced.

(j) Cash and cash equivalents

Cash and cash equivalents in the statements of financial position comprise cash at banks and on hand, and guaranteed investment certificates with an original maturity of three months or less, and which are readily convertible into a known amount of cash. The Company does not invest in any asset-backed deposits/investments.

(k) Provisions

A provision is recognized when the Company has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation, and the amount of the obligation can be reliably estimated. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

A provision for onerous contracts is recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract.

The Company had no material provisions or onerous contracts at December 31, 2011, December 31, 2010 and January 1, 2010.

(I) Share based payment transactions

The fair value of share options granted to employees is recognized as an expense over the vesting or service period with a corresponding increase in equity. The fair value of share options granted to non-employees is recognized as an expense over the period the services have been provided. An individual is classified as an employee when the individual is an employee for legal or tax purposes (direct employee) or provides services similar to those performed by a direct employee, including directors of the Company.

Share based payments to employees:

The Company measures share based payments to employees at the fair value of the options at the grant date and recognizes the expense over the period during which the options vest. The fair value of the options granted is measured using the Black-Scholes option-pricing model, taking into account the terms and conditions upon which the options were granted. At each financial position reporting date, the amount recognized as an expense is adjusted to reflect the actual number of share options that are expected to vest.

Share based payments to non-employees:

The Company measures share based payments to non-employees at the fair value of the goods or services received at the date of receipt of the goods or services. If the fair value of the goods or services cannot be measured reliably, the fair value of the options granted will be used, measured using the Black-Scholes option-pricing model.

(m) Income taxes

Tax expense comprises current and deferred tax. Current tax and deferred tax are recognized in profit or loss except to the extent that it relates to a business combination, or items recognized directly in equity or in other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for the following temporary differences: the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss, and differences relating to investments in subsidiaries and jointly controlled entities to the extent that it is probable that they will not reverse in the foreseeable future. In addition, deferred tax is not recognized for taxable temporary differences arising on the initial recognition of goodwill. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

(n) Restoration, rehabilitation and environmental obligations

A legal or constructive obligation to incur restoration, rehabilitation and environmental costs may arise when environmental disturbance is caused by the exploration, development or ongoing production of a mineral property interest. Such costs arising from the decommissioning of plant and other site preparation work, discounted to their net present value, are provided for and capitalized at the start of each project to the carrying amount of the asset, as soon as the obligation to incur such costs arises. Discount rates using a pretax rate that reflects the time value of money are used to calculate the net present value. These costs are charged against profit or loss over the economic life of the related asset, through amortization using either a unit-of-production or the straight-line method as appropriate. The related liability is adjusted for each period for the unwinding of the discount rate and for changes to the current market-based discount rate, amount or timing of the underlying cash flows needed to settle the obligation. Costs for restoration of subsequent site damage that is created on an ongoing basis during production are provided for at their net present values and charged against profits as extraction progresses.

The Company has no material restoration, rehabilitation and environmental costs as the disturbance to date is minimal.

(o) Interest income

Interest income is recognized on the accrual basis.

(p) Loss per share

The Company presents basic and diluted loss per share data for its common shares, calculated by dividing the loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the period. Diluted loss per share is determined by adjusting the loss attributable to common shareholders and the weighted average number of common shares outstanding for the effects of all warrants and options outstanding that may add to the total number of common shares. The dilutive effect of outstanding stock options and warrants on earnings per share is calculated by determining the proceeds for the exercise of such securities which are then assumed to be used to purchase common shares of the Company. If the number of common shares outstanding increases or decreases as a result of share split or consolidation, the calculation of basic and diluted loss per share for all periods presented, is adjusted retrospectively.

(q) Significant accounting judgments and estimates

The preparation of these consolidated financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. These consolidated financial statements include estimates that, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the consolidated financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Critical accounting estimates

Significant assumptions about the future that management has made that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

- the estimated useful lives and residual value of PE which are included in the consolidated financial statements and the related depreciation included in profit or loss;
- the inputs used in accounting for share based payment transactions and in valuation of warrants included in short-term investments;
- management assumption of no material restoration, rehabilitation and environmental, based on the facts and circumstances that existed during the period; and
- management's position that there is no income tax asset recognized within these consolidated financial statements.

Critical accounting judgments

The categorization of financial assets and liabilities is an accounting policy that requires management to make judgments or assessments.

Management applied judgment in determining the functional currency of the Company as Canadian Dollars.

(r) Recent Accounting Pronouncements

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods after December 31, 2011. Many are not applicable or do not have a significant impact to the Company and have been excluded from the table below. The following have not yet been adopted and are being evaluated to determine their impact on the Company.

(i) IFRS 9 – Financial instruments ("IFRS 9") was issued by the IASB in October 2010 and will replace IAS 39 Financial Instruments: Recognition and Measurement ("IAS 39"). IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward unchanged to IFRS 9. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 is effective for annual periods beginning on or after January 1, 2015.

(ii) IFRS 10 – Consolidated financial statements ("IFRS 10") was issued by the IASB in May 2011. IFRS 10 is a new standard which identifies the concept of control as the determining factor in assessing whether an entity should be included in the consolidated financial statements of the parent company. Control is comprised of three elements: power over an investee; exposure to variable returns from an investee; and the ability to use power to affect the reporting entity's returns. IFRS 10 is effective for annual periods beginning on or after January 1, 2013. Earlier adoption is permitted.

(r) Recent Accounting Pronouncements (continued)

(iii) IFRS 11 – Joint arrangements ("IFRS 11") was issued by the IASB in May 2011. IFRS 11 is a new standard which focuses on classifying joint arrangements by their rights and obligations rather than their legal form. Entities are classified into two groups: parties having rights to the assets and obligations for the liabilities of an arrangement, and rights to the net assets of an arrangement. Entities in the former case account for assets, liabilities, revenues and expenses in accordance with the arrangement, whereas entities in the latter case account for the arrangement using the equity method. IFRS 11 is effective for annual periods beginning on or after January 1, 2013. Earlier application is permitted.

(iv) IFRS 12 – Disclosure of interests in other entities ("IFRS 12") was issued by the IASB in May 2011. IFRS 12 is a new standard which provides disclosure requirements for entities reporting interests in other entities, including joint arrangements, special purpose vehicles, and off balance sheet vehicles. IFRS 12 is effective for annual periods beginning on or after January 1, 2013. Earlier application is permitted.

(v) IFRS 13 – Fair value measurement ("IFRS 13") was issued by the IASB in May 2011. IFRS 13 is a new standard which provides a precise definition of fair value and a single source of fair value measurement considerations for use across IFRSs. The key points of IFRS 13 are as follows:

- fair value is measured using the price in a principal market for the asset or liability, or in the absence of a principal market, the most advantageous market;
- financial assets and liabilities with offsetting positions in market risks or counterparty credit risks can be measured on the basis of an entity's net risk exposure;
- disclosures regarding the fair value hierarchy has been moved from IFRS 7 to IFRS 13, and further guidance has been added to the determination of classes of assets and liabilities;
- a quantitative sensitivity analysis must be provided for financial instruments measured at fair value;
- a narrative must be provided discussing the sensitivity of fair value measurements categorised under Level 3 of the fair value hierarchy to significant unobservable inputs;
- and information must be provided on an entity's valuation processes for fair value measurements categorized under Level 3 of the fair value hierarchy.

IFRS 13 is effective for annual periods beginning on or after January 1, 2013. Earlier application is permitted.

(vi) IAS 1 – Presentation of financial statements ("IAS 1") was amended by the IASB in June 2011 in order to align the presentation of items in other comprehensive income with US GAAP standards. Items in other comprehensive income will be required to be presented in two categories: items that will be reclassified into profit or loss and those that will not be reclassified. The flexibility to present a statement of comprehensive income as one statement or two separate statements of profit and loss and other comprehensive income remains unchanged. The amendments to IAS 1 are effective for annual periods beginning on or after July 1, 2012.

3. Exploration and evaluation

(a) Coppermine River Project

The Company has a 100% interest in mining lease number 2797 located in the Coronation Gulf area, west of the Coppermine River (Coppermine River Property), approximately 60-75 km southwest of Kugluktuk, Nunavut, Canada. The Company intends to retain its ownership rights in the project by making any required payments to retain the property on a care and maintenance basis. For the year ended December 31, 2011, the Company accrued royalty fees on the project of \$100,000, (year ended December 31, 2010 - \$100,000).

3. Exploration and evaluation (continued)

(b) Rory Group

The Company has a 100% interest in the Rory Group consisting of 265 staked claims located in the Yukon Territory, Canada.

(c) RC Group

The Company has a 100% interest in the RC Group consisting of 30 staked claims located in Nunavut, Canada.

(d) Peters and Aremu properties

On July 7, 2011, the Company completed the acquisition of Guyana Goldfield Inc.'s 100% interest in the Peters property and Aremu property located in Guyana, South America for US\$2,400,000 paid in cash upon closing. In conjunction, the Company acquired a related US\$15,000 bond for US\$15,000 paid in cash (note 17(a)(v)).

4. Capital risk management

The Company manages its capital with the following objectives:

- to ensure sufficient financial flexibility to achieve the ongoing business objectives including funding of future growth opportunities, and pursuit of accretive acquisitions; and
- to maximize shareholder return through enhancing the share value.

The Company monitors its capital structure and makes adjustments according to market conditions in an effort to meet its objectives given the current outlook of the business and industry in general. The Company may manage its capital structure by issuing new shares, repurchasing outstanding shares, adjusting capital spending, or disposing of assets. The capital structure is reviewed by management and the Board of Directors on an ongoing basis.

The Company considers its capital to be equity, which comprises share capital, reserves and deficit, which at December 31, 2011, totaled \$5,708,397 (December 31, 2011 - \$9,536,749; January 1, 2010 - \$2,694,816).

The Company manages capital through its financial and operational forecasting processes. The Company reviews its working capital and forecasts its future cash flows based on operating expenditures, and other investing and financing activities. The forecast is updated based on activities related to its mineral properties. Selected information is provided to the Board of Directors. The Company's capital management objectives, policies and processes have remained unchanged during the year ended December 31, 2011.

The Company is not subject to any external capital requirements.

5. Financial risk management

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including foreign currency risk and equity price risk).

Risk management is carried out by the Company's management team with guidance from the Audit Committee under policies approved by the Board of Directors. The Board of Directors also provides regular guidance for overall risk management.

5. Financial risk management (continued)

(i) Credit risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash and cash equivalents and restricted cash. Cash and cash equivalents and restricted cash are held with select major Canadian chartered banks, from which management believes the risk of loss to be minimal.

(ii) Liquidity risk

Liquidity risk is the risk that the Company will not have sufficient cash resources to meet its financial obligations as they come due. The Company's liquidity and operating results may be adversely affected if its access to the capital market is hindered, whether as a result of a downturn in stock market conditions generally or matters specific to the Company. The Company generates cash flow primarily from its financing activities. As at December 31, 2011, the Company had cash and cash equivalents of \$5,402,508 (December 31, 2010 - \$9,550,084; January 1, 2010 - \$2,872,044) to settle current liabilities of \$501,047 (December 31, 2010 - \$653,721; January 1, 2010 - \$447,991). All of the Company's financial liabilities have contractual maturities of less than 90 days and are subject to normal trade terms. The Company regularly evaluates its cash position to ensure preservation and security of capital as well as liquidity.

(iii) Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates and equity prices.

(a) Foreign currency risk

The Company's functional and reporting currency is the Canadian Dollar and major purchases are transacted in Canadian Dollars. As of December 31, 2011, the Company funds certain operations, exploration and administrative expenses in Guyana and Barbados on a cash call basis using US Dollar currency converted from its Canadian Dollar bank accounts held in Canada. The Company maintains US Dollar bank accounts in Canada, Barbados, and Guyana and Guyanese Dollar bank accounts in Guyana. The Company is subject to gains and losses from fluctuations in the US Dollar and Guyanese Dollar against the Canadian Dollar.

(b) Equity price risk

The Company is exposed to price risk with respect to equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. The Company's investment in the common shares and warrants of Prophecy Coal are subject to fair value fluctuations arising from changes in the equity market.

5. Financial risk management (continued)

Sensitivity analysis

Based on management's knowledge and experience of the financial markets, the Company believes the following movements are reasonably possible over a twelve month period:

(i) The Company holds balances in foreign currencies which could give rise to exposure to foreign exchange risk. Sensitivity to a plus or minus 10% change in the foreign exchange rate against the Canadian Dollar would affect the reported loss and comprehensive loss by approximately \$276,000.

(ii) The Company's investment in the common shares of Prophecy Coal is subject to fair value fluctuations (included in 'short-term investments'). As at December 31, 2011, sensitivity to a plus or minus 10% change in the quoted market price of Prophecy Coal common shares, with all other variables held constant, would affect reported loss and comprehensive loss for the year ended December 31, 2011 by approximately \$21,000.

(iii) The Company's investment in the warrants of Prophecy Coal (included in 'short-term investments') are subject to fair value fluctuations. As at December 31, 2011, sensitivity to a plus or minus 10% change in the fair value of Prophecy Coal warrants, with all other variables held constant, would not have a material impact on the reported net loss and comprehensive loss.

6. Categories of financial instruments

	As at December 31, 2011		De	As at ecember 31, 2010	As at January 1, 2010
Financial assets:					
Financial assets at FVTPL					
Cash and cash equivalents	\$	5,402,508	\$	9,550,084	\$ 2,872,044
Restricted cash		15,255		-	-
Short-term investments		205,290		552,700	160,000
Financial liabilities:					
Other financial liabilities					
Amounts payable and other liabilities	\$	501,047	\$	653,721	\$ 447,991

As of December 31, 2011, December 31, 2010 and January 1, 2010, the fair value of the Company's financial instruments approximates the carrying value, due to their short-term nature.

7. Cash and cash equivalents

	As at December 31, 2011	As at December 31, 2010	As at January 1, 2010
Cash Cash equivalents	\$ 5,402,508 -	\$ 2,256,722 7,293,362	\$
Total	\$ 5,402,508	\$ 9,550,084	\$ 2,872,044

8. Short-term investments

	Dec	As at December 31, 2011		As at December 31, 2010		As at January 1, 2010	
Prophecy Coal common shares Prophecy Coal warrants ⁽¹⁾	\$	205,000 290	\$	500,000 52,700	\$	160,000 -	
	\$	205,290	\$	552,700	\$	160,000	

⁽¹⁾ On December 31, 2010, the fair value of the warrants was determined to be \$52,700, using the Black-Scholes valuation model with the following assumptions: a 1.23 year term, 111.08% volatility, risk-free interest rate of 1.66% and a dividend rate of 0%. On December 31, 2011, the fair value of the warrants was determined to be \$290 by revaluing the warrants using the Black Scholes option pricing model with the following assumptions: a 0.23 year term, 76.62% volatility, risk-free interest rate of 0.97% and a dividend rate of 0%.

9. Accounts receivable and other assets

	Dec	As at cember 31, 2011	As at December 31, 2010		As at January 1, 2010

Falling due within the year Trade payables	\$	501,047	\$	653,721	\$ 447,991

12. Share capital

a) Authorized share capital

The authorized share capital consisted of unlimited number of common shares. The common shares do not have a par value. All issued shares are fully paid.

b) Common shares issued

At December 31, 2011, the issued share capital amounted to \$22,361,905. The change in issued share capital for the periods were as follows:

	Number of common shares	Amount
Balance, January 1, 2010	52,147,845	\$ 18,288,328
Private placement of common share units (i)	35,000,000	7,000,000
Value allocated to warrants	-	(2,891,000)
Costs of issuance	-	(35,423)
Balance, December 31, 2010 and December 31, 2011 (note 1)	87,147,845	\$ 22,361,905

(i) On December 10, 2010, the Company closed a non-brokered placement (the "Placement") of 70,000,000 preconsolidation units (see note 1) ("Units") at a price of \$0.10 per Unit for gross proceeds of \$7,000,000. Each Unit is comprised of one pre-consolidation common share of Guyana and one pre-consolidation common share purchase warrant, each such share purchase warrant entitling the holder thereof to acquire one additional pre-consolidation common share for a period of 24 months at an exercise price of \$0.13 per share. Insiders of Guyana, and their affiliates, subscribed for an aggregate of 10,400,000 post-consolidation Units in the Placement (see note 17(c)). All securities issued in connection with the Placement were subject to a statutory hold period expiring on April 11, 2011.

13. Stock options

The Company adopted a stock option plan for employees, consultants, officers and directors on April 24, 1995. The number of common shares reserved for issue under the stock option plan may not exceed 10% of the issued and outstanding capital of the Company at any given time. The term of options granted under the stock option plan may not exceed five years from the date of the grant and the option price, which may be determined by the directors of the Company, may not be less than the market price for the common shares at the grant date, less an approved discount.

The Company records a charge to the statement of loss and comprehensive loss using the Black-Scholes fair valuation option pricing model. The valuation is dependent on a number of estimates, including the risk free interest rate, the level of stock volatility, together with an estimate of the level of forfeiture. The level of stock volatility is calculated with reference to the historic traded daily closing share price at the date of issue.

Option pricing models require the input of highly subjective assumptions including the expected price volatility. Changes in the subjective input assumptions can materially affect the fair value estimate, and therefore the existing models do not necessarily provide a reliable measure of the fair value of the Company's share purchase options.

13. Stock options (continued)

The following table reflects the continuity of stock options for the year ended December 31, 2011:

	Number of stock options	Weighted average exercise price (\$)	
Balance, January 1, 2010, and			
December 31, 2010	4,110,000	0.34	
Granted	4,675,000	0.34	
Cancelled	(185,000)	0.37	
Balance, December 31, 2011 (note 1)	8,600,000	0.34	
Weighted average exercise price for vested options		0.35	

The following table reflects the actual stock options issued and outstanding as of December 31, 2011:

Expiry Date	Exercise Price (\$)	Weighted Average Remaining Contractual Life (years)	Number of Options Outstanding	Number of Options Vested (Exercisable)	Number of Options Unvested
May 11, 2012	0.20	0.36	1,900,000	1,900,000	-
June 24, 2013	0.50	1.48	1,850,000	1,850,000	-
August 26, 2013	0.36	1.65	175,000	175,000	-
January 28, 2016 (i) 0.36	4.08	2,875,000	1,437,500	1,437,500
April 28, 2016 (ii)	0.48	4.33	250,000	125,000	125,000
November 7, 2016	(iii) 0.28	4.86	1,550,000	387,500	1,162,500
		2.80	8,600,000	5,875,000	2,725,000

(i) On January 28, 2011, the Company granted 2,875,000 options to certain directors, officers and consultants of the Company at a price of \$0.36 per share for services rendered. The fair value of the service provided by consultants are not reliably estimable as these services are traditionally transacted in options, making measurement of that service impractical. The fair value of these options at the date of grant of \$0.324 was estimated using the Black-Scholes option valuation model with the following assumptions: a five year expected term; 145% expected volatility based on historical trends; risk free interest rate of 2.24% per annum; share price on the date of grant of \$0.36; and an expected dividend yield of 0%. The grant date fair value assigned to these options was \$931,500. These options, which will vest by 25% upon date of grant and by 25% on each of the 6, 12 and 18 month anniversaries of the date of grant, will expire on January 28, 2016. For the year ended December 31, 2011, the impact on salaries and benefits (note 16) was \$824,232.

(ii) On April 28, 2011, the Company granted 250,000 options to a director of the Company at a price of \$0.48 per share. The fair value of these options at the date of grant of \$0.434 was estimated using the Black-Scholes option valuation model with the following assumptions: a five year expected term; a 145% expected volatility based on historical trends; risk free interest rate of 2.61%; share price at the date of grant of \$0.48; and an expected dividend yield of 0%. The grant date fair value assigned to these options was \$108,500. These options, which will vest by 25% upon date of grant and by 25% on each of the 6, 12 and 18 month anniversaries of the date of grant, will expire on April 28, 2016. For the year ended December 31, 2011, the impact on salaries and benefits (note 16) was \$84,760.

13. Stock options (continued)

(iii) On November 7, 2011, the Company granted 1,550,000 options to a director and consultants of the Company at a price of \$0.28 per share for services rendered. The fair value of the service provided by consultants are not reliably estimable as these services are traditionally transacted in options, making measurement of that service impractical. The fair value of these options at the date of grant of \$0.2519 was estimated using the Black-Scholes option valuation model with the following assumptions: a five year expected term; a 145% expected volatility based on historical trends; risk free interest rate of 1.5%; share price at the date of grant of \$0.28; and an expected dividend yield of 0%. The grant date fair value assigned to these options was \$390,445. These options, which will vest by 25% upon date of grant and by 25% on each of the 6, 12 and 18 month anniversaries of the date of grant, will expire on November 7, 2016. For the year ended December 31, 2011, the impact on salaries and benefits and consulting fees (note 16) was \$25,365 and \$131,898 respectively.

14. Net loss per common share

The calculation of basic and diluted loss per share for the year ended December 31, 2011 was based on the loss attributable to common shareholders of \$4,894,607 (year ended December 31, 2010 - loss of \$173,487) and the weighted average number of common shares outstanding of 87,147,845 (year ended December 31, 2010 - 54,161,544). Diluted loss per share did not include the effect of 8,600,000 stock options and 35,000,000 warrants as they are anti-dilutive. All per share information reflects the share consolidation disclosed in note 1.

15. Warrants

The following table reflects the continuity of warrants for the year ended December 31, 2011:

	Number of warrants	Weighted average exercise price (\$)	
Balance, January 1, 2010	14,331,333	0.60	
Issued (note 12(b)(i))	35,000,000	0.26	
Balance, December 31, 2010	49,331,333	0.36	
Expired	(14,331,333)	0.60	
Balance, December 31, 2011 (note 1)	35,000,000	0.26	

The following table reflects the actual warrants issued and outstanding as of December 31, 2011:

Number of Warrants Outstanding	Fair Value	Exercise Price	Expiry Date
35,000,000	\$2,891,000 (22,013)	\$0.26 -	December 10, 2012 Warrant issue cost
35,000,000	\$2,868,987	\$0.26	

16. General and administrative

	Year Ended December 31,		
		2011	2010
Salaries and benefits (note 13)	\$	794,634 \$	72,856
Consulting fees		311,648	144,000
Administrative and general		139,394	99,559
Reporting issuer costs		68,225	35,657
Accounting fees		28,560	44,460
Professional fees		114,228	40,880
Insurance		34,605	26,218
	\$	1,491,294 \$	463,630

17. Related party balances and transactions

Related parties include the Board of Directors, officers, close family members and enterprises that are controlled by these individuals as well as certain persons performing similar functions. Related party transactions conducted in the normal course of operations are measured at the amount established and agreed to by the related parties.

(a) Guyana entered into the following transactions with related parties:

			Year End Decembe	
Note	es		2011	2010
Marrelli CFO Outsource Syndicate Inc. ("Marrelli"	') (i)	\$	24,000 \$	24,000
Marrelli Support Services Inc. ("MSSI")	(ii)		19,719	19,344
Marrelli Tax Compliance Services				
Inc. ("MTCS")	(iii)		1,500	-
Bruce Rosenberg	(iv)		34,895	9,208
Guyana Goldfields Inc.	(v)	2	,455,640	14,825
DSA Corporate Services Inc. ("DSA")	(vi)		6,963	6,630
D & R Filing Corp. ("D & R")	(vii)		4,417	4,095
1140301 Ontario Ltd.	(viii)		12,000	-
2260200 Ontario Inc.	(viii)		12,000	-
Lewis Downey Tornosky Lassaline & Timpano	(ix)		6,000	-

(i) The Chief Financial Officer ("CFO") of Guyana is the president of Marrelli. Fees related to the CFO function performed.

(ii) The CFO of Guyana is the president of MSSI. Fees related to accounting services provided by MSSI. As at December 31, 2011, MSSI was owed \$7,243 (December 31, 2010 - \$7,243) and these amounts were included in amounts payable and other liabilities.

(iii) The CFO of Guyana is the president of MTCS. Fees related to tax services provided by MTCS.

(iv) Bruce Rosenberg is a director of Guyana. Fees related to legal services provided by Mr. Rosenberg and director's fees. Director's fees were paid to a company controlled by Mr. Rosenberg.

17. Related party balances and transactions (continued)

(a) Guyana entered into the following transactions with related parties (continued):

(v) On July 7, 2011, the Company completed the acquisition of Guyana Goldfield Inc.'s 100% interest in the Peters property and Aremu property located in Guyana, South America for US\$2,400,000 paid in cash upon closing. In conjunction, the Company acquired a related US\$15,000 bond for US\$15,000 paid in cash. The 2010 balance represents office expenses paid on behalf of Guyana. Guyana Goldfields Inc. and Guyana have common management and directors. During the year, the Company transferred \$155,000 (2010 – nil) to Guyana Goldfields Inc. to be held in trust and used for expenditures on the Peter's property. As at December 31, 2011, a balance of \$55,000 was held in trust by Guyana Goldfields Inc. and is included in cash and cash equivalents. As at December 31, 2011, amounts payable and other liabilities includes \$18,605 (December 31, 2010 - \$3,939) payable to Guyana Goldfields Inc.

(vi) The CFO of Guyana is an officer of DSA. Fees related to corporate secretarial services provided by DSA. As at December 31, 2011, DSA was owed \$622 (December 31, 2010 - \$622) and these amounts were included in amounts payable and other liabilities.

(vii) The CFO of Guyana is an officer of D & R. Fees related to filing services provided by D & R. As at December 31, 2011, D & R was owed \$nil (December 31, 2010 - \$339) and these amounts were included in amounts payable and other liabilities.

(viii) Director's fees paid to a company controlled by a director of the Company.

(ix) Director's fees paid to a firm at which a director of the Company is a partner.

(b) Remuneration of Directors and key management personnel of the Company was as follows:

	Year En Decembe	
	2011	2010
Total salaries and benefits ⁽¹⁾	\$ 174,000 \$	120,000
Total share based payments	\$ 575,993 \$	55,343

⁽¹⁾ Salaries and benefits include director fees. The board of directors and select officers do not have employment or services contracts with the Company. Directors are entitled to director fees and stock options for their services and officers are entitled to stock options for their services.

(c) On December 10, 2010, insiders and affiliates of the Corporation subscribed for an aggregate of 10,400,000 Units at \$0.10 per Unit for total gross proceeds of \$20,800.

18. Segmented information

At December 31, 2011, the Company operates primarily in two reportable geographical segments, being the exploration for minerals in Guyana and Canada. The Company maintains a branch office in Toronto, Canada. For the year ended December 31, 2011 net loss and comprehensive loss for the year amounted to \$4,894,607 (Guyana \$3,009,135, Barbados \$3,989 and Canada \$1,881,483). For the year ended December 31, 2010, net loss and comprehensive loss for the period amounted to \$173,487 (Canada \$173,487). For the year ended December 31, 2010, net loss and comprehensive loss for the period amounted to \$173,487 (Canada \$173,487). For the year ended December 31, 2011 income amounted to \$79,887 (Guyana \$NIL, Barbados \$3 and Canada \$79,884). For the year ended December 31, 2010, revenues for the period amounted to \$31,070 (Canada \$31,070). As at December 31, 2011, total non-current assets amounted to \$547,115 (Guyana - \$526,502, Barbados - \$NIL, and Canada - \$20,613]. At December 31, 2010, total non-current assets amounted to \$42,066 (Canada - \$29,446 (Canada - \$29,446). At January 1, 2010, total non-current assets amounted to \$42,066 (Canada - \$42,066).

19. Contingencies and commitments

Occupancy Lease Agreement

The Company is committed to minimum annual rent payments of \$129,639 until the end of the underlying lease on June 30, 2013.

20. Exploration and evaluation expenditures

The Company enters into exploration agreements or permits with other companies or foreign governments pursuant to which it may explore, or earn interests in mineral properties by issuing common shares and/or making option or rental payments and/or incurring expenditures in varying amounts by varying dates. Failure by the Company to meet such requirements can result in a reduction or loss of the Company's ownership interests or entitlements under the agreements or permits.

The following is a detailed list of expenditures incurred on the Company's mineral properties:

	Year Ended December 31,		
	2011	2010	
Guyana, South America			
Acquisition costs (note 3(d))	\$ 2,598,640	\$-	
Supplies	119,884	-	
General	75,113	-	
Contractors	58,900	-	
Drilling	47,151	-	
Geophysical	35,608	-	
Transportation	14,601	-	
Wages and salary	9,537	-	
Repairs and maintenance	3,738	-	
	2,963,172	-	
Canada			
Advance royalty payments	100,000	100,000	
Explorations activities	28,500	-	
Maintenance costs	14,588	14,588	
	143,088	114,588	
	\$ 3,106,260	\$ 114,588	

21. Income taxes

(a) Provision for income taxes

Income taxes differ from the amount that would be computed by applying the combined statutory income tax rates of 28.25% (2010 - 31%). The reasons for the differences are as follows:

	Year Ended December 31,	
	2011	2010
Loss before income taxes	\$ (4,894,607) \$	(173,487)
Expected tax recovery at statutory rates		
	(1,382,727)	(53,781)
Increase (decrease) resulting from		
Rate differential on foreign subsidiaries	(210,498)	-
Non-deductible stock-based compensation	301,216	22,585
Taxable portion of capital gain on expiry of warrants	499,432	-
Unrealized loss (gain) on short-term investment	49,072	(60,869)
Other	2,974	-
Losses not benefited	26,753	92,065
Changes in deferred taxes not recognized	713,778	-
	\$ - \$	-

(b) Deferred tax balances

The tax effects of temporary differences that give rise to deferred tax assets and future income tax liabilities at December 31, 2011 and 2010 are as follows:

	As at December 31 2011	As at , December 31, 2010
Non-capital tax losses carry-forward - Canada	\$ 452,654	\$ 496,501
Non-capital tax losses carry-forward - Barbados	998	-
Non-capital tax losses carry-forward - Guyana	1,097,722	-
Resource expenditure pools	1,570,903	1,886,640
Property and equipment	(110	(157)
Unpaid Management Fees	-	55,325
Unrealized loss on short-term investments	99,339	55,913
Cost of issue of shares	19,528	33,034
Deferred taxes not recognized	(3,241,034)	(2,527,256)
Balance, end of year	\$ -	\$-

21. Income taxes (continued)

(c) Non-capital losses

The Company has accumulated non-capital losses for income tax purposes which can be carried forward to be applied against future taxable income. The right to use these losses expires as follows:

Canada	Year	Tax loss
	2014	\$ 206,99
	2015	265,38
	2026	80,18
	2027	458,28
	2029	441,16
	2030	515,10
	2031	33,09
		\$ 2,000,21
Barbados	Year	Tax loss
	2020	\$ 3,99
Guyana	Year	Tax loss
	Indefinite	\$ 2,977,50

22. Conversion to IFRS

(i) Overview

As stated in Significant Accounting Policies (note 2), these consolidated financial statements have been prepared in accordance with IFRS as issued by the IASB.

The policies set out in the Significant Accounting Policies section have been applied in preparing the financial statements for the years ended December 31, 2011 and 2010 and in the preparation of an opening IFRS statement of financial position at January 1, 2010 (the Company's Transition Date).

(ii) First-time adoption of IFRS

The adoption of IFRS requires the application of IFRS 1, which provides guidance for an entity's initial adoption of IFRS. IFRS 1 generally requires retrospective application of IFRS as effective at the end of its first annual IFRS reporting period. However, IFRS 1 also provides certain optional exemptions and mandatory exceptions to this retrospective treatment.

The Company has elected to apply the following optional exemptions in its preparation of an opening IFRS statement of financial position as at January 1, 2010, the Company's Transition Date.

- To apply IFRS 2 Share based Payment only to equity instruments that were issued after November 7, 2002 and had not vested by the Transition Date.
- To apply IFRS 3 Business Combinations prospectively from the Transition Date, therefore not restating business combinations that took place prior to the Transition Date.

IFRS 1 does not permit changes to estimates that have been made previously. Accordingly, estimates used in the preparation of the Company's opening IFRS statement of financial position as at the Transition Date are consistent with those that were made under Canadian GAAP.

The Company's Transition Date IFRS consolidated statement of financial position is included as comparative information in the consolidated statements of financial position in these financial statements.

(iii) Changes to accounting policies

The Company has changed certain accounting policies to be consistent with IFRS effective or available on December 31, 2011, the Company's first annual IFRS reporting date. The changes to its accounting policies have resulted in certain changes to the recognition and measurement of assets, liabilities, equity, revenue and expenses within its financial statements.

22. Conversion to IFRS (continued)

(iii) Changes to accounting policies (continued)

The following summarizes the significant changes to the Company's accounting policies on adoption of IFRS.

(a) Impairment of (non-financial) assets

IFRS requires a write down of assets if the higher of the fair market value and the value in use of a group of assets is less than its carrying value. Value in use is determined using discounted estimated future cash flows. Prior Canadian GAAP required a write down to estimated fair value only if the undiscounted estimated future cash flows of a group of assets are less than its carrying value.

The Company's accounting policies related to impairment of non-financial assets have been changed to reflect these differences. There was no impact on the consolidated financial statements.

(b) Decommissioning Liabilities (Asset Retirement Obligations)

IFRS requires the recognition of a decommissioning liability for legal or constructive obligations, while prior Canadian GAAP only requires the recognition of such liabilities for legal obligations. A constructive obligation exists when an entity has created reasonable expectations that it will take certain actions.

The Company's accounting policies related to decommissioning liabilities have been changed to reflect these differences. There is no impact on the consolidated financial statements.

(c) Exploration and evaluation

On transition to IFRS, the Company elected to expense exploration and evaluation expenditures as incurred. Previously, the Company's Canadian GAAP policy was to capitalize exploration and evaluation expenditures as incurred.

Increase (decrease) to the Consolidated Statements of Financial Position

	Decen	s at nber 31,)10	Janu	s at ıary 1, 010
Adjustment to mineral resource properties	\$	(3)	\$	(3)
Adjustment to deficit	\$	3	\$	3

(d) Flow-through shares

On transition to IFRS, the Company elected to follow a policy whereby flow-through proceeds should be allocated between the offering of the common shares and the sale of tax benefits when the common shares are offered. The allocation is made based on the difference between the quoted price of the common shares and the amount the investor pays for the flow-through shares. A flow-through premium liability is recognized for the premium paid by the investors. If flow-through shares are sold at a discount, there is no premium. Any premium liability is reduced with a corresponding increase in deferred income tax recovery in the period of renunciation. A deferred tax liability is recognized in accordance with IAS 12, Income Taxes, for the tax base of the mineral properties less the amount renounced.

22. Conversion to IFRS (continued)

(iii) Changes to accounting policies (continued)

(d) Flow-through shares (continued)

Previously, the Company's Canadian GAAP policy was to adopt the recommendations of EIC 146 Flow-through Shares with respect to the accounting for flow-through shares. This resulted in the Company reducing the net proceeds of the flow-through share issuance by the future income tax liability of the Company resulting from the renunciation of the exploration and development expenditures in favour of the flow-through share subscribers. This future income tax liability was calculated net of any benefit resulting from unrecorded income tax loss carry forwards and income tax pools in excess of the accounting value available for deduction.

Increase (decrease) to the Consolidated Statements of Financial Position

	As at December 31, 2010	As at January 1, 2010
Adjustment to share capital	\$ 1,823,490	\$ 1,823,490
Adjustment to deficit	\$ (1,823,490)	\$ (1,823,490)

(iv) Presentation

Certain amounts in the consolidated statements of financial position, statements of loss and comprehensive loss and statements of cash flows have been reclassified to conform to the presentation adopted under IFRS.

22. Conversion to IFRS (continued)

(v) Reconciliation between IFRS and Canadian GAAP

The January 1, 2010 Canadian GAAP consolidated statement of financial position has been reconciled to IFRS as follows:

	January 1, 2010		
	Canadian GAAP	Effect of transition to IFRS	IFRS
ASSETS			
Current assets			
Cash and cash equivalents	\$ 2,872,044	\$-	\$ 2,872,044
Short-term investments	160,000	-	160,000
Accounts receivable and other assets	68,697	-	68,697
	3,100,741	-	3,100,741
Property and equipment	42,066	-	42,066
Mineral resource properties (note 22(iii)(c))	3	(3)	-
	\$ 3,142,810	\$ (3)	\$ 3,142,807
LIABILITIES AND EQUITY			
Current liabilities			
Amounts payable and other liabilities	\$ 447,991	\$-	\$ 447,991
Capital and reserves			
Share capital (note 22(iii)(d))	16,464,838	1,823,490	18,288,328
Capital surplus	2,525,674	-	2,525,674
Warrant reserve	3,538,936	-	3,538,936
Deficit (note 22(iii)(c)(d))	(19,834,629)	(1,823,493)	(21,658,122)
Total capital and reserves	2,694,819	(3)	2,694,816
Total liabilities and equity	\$ 3,142,810	\$ (3)	\$ 3,142,807

22. Conversion to IFRS (continued)

(v) Reconciliation between IFRS and Canadian GAAP (continued)

The December 31, 2010 Canadian GAAP consolidated statement of financial position has been reconciled to IFRS as follows:

	December 31, 2010		
	Canadian GAAP	Effect of transition to IFRS	IFRS
ASSETS			
Current assets			
Cash and cash equivalents	\$ 9,550,084	\$-	\$ 9,550,084
Short-term investments	552,700	-	552,700
Accounts receivable and other assets	58,240	-	58,240
	10,161,024	-	10,161,024
Property and equipment	29,447	-	29,447
Mineral resource properties (note 22(iii)(c))	3	(3)	-
	\$ 10,190,474	\$ (3)	\$ 10,190,471
LIABILITIES AND EQUITY			
Current liabilities			
Amounts payable and other liabilities	\$ 653,721	\$ -	\$ 653,721
Capital and reserves			
Share capital (note 22(iii)(d))	20,538,415	1,823,490	22,361,905
Capital surplus	2,598,530	-	2,598,530
Warrant reserve	6,407,923	-	6,407,923
Deficit (note 22(iii)(c)(d))	(20,008,115)	(1,823,493)	(21,831,608)
Total capital and reserves	9,536,753	(3)	9,536,750
Total liabilities and equity	\$ 10,190,474	\$ (3)	\$ 10,190,471

There were no changes to the consolidated statements of loss and comprehensive loss and cash flows, as a result of the transition to IFRS, for the year ended December 31, 2010.
